

Assistive Technology (AT) Consideration Checklist

This checklist was designed to support Committees on Preschool Education (CPSEs) and Committees on Special Education (CSEs) in their thorough consideration of AT devices for students with disabilities. The AT devices included on this checklist are not exhaustive, so CPSEs/CSEs are encouraged to make other student-specific considerations outside of the items on this checklist if necessary. This checklist is for consideration purposes and may be used to support the assessment of an assistive technology device (or, devices) for an individual student.

Student: _____

Date: _____

Environments and Tasks	Challenge Areas Related to Tasks	Possible AT Devices
(Check all applicable environments and tasks in which the student may require AT support.)	(Check "Independent" if the student functions adequately with standard classroom tools. Check "Consider AT" if additional support may be needed.)	(For areas in which "Consider AT" is chosen in the preceding column, indicate any possible AT devices the CPSE/CSE may wish to consider when assessing the student's AT needs.)
